DETAILED ACTION

This Office Action is in response to the Amendment After-Final Rejection filed on December 22, 2005. Claims 2-6 and 12 were cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination of an internal combustion engine having an air intake duct, an exhaust duct, a turbocharger with an exhaust gas turbine disposed in the exhaust duct and a compressor disposed in the air intake duct and connected to the turbine to be driven thereby, a rotary slide valve disposed in the exhaust duct upstream of the turbine and bypassing the turbine for discharging exhaust gas from first and second exhaust ducts upstream of the turbine, said valve including:

"valve housing with relief openings disposed adjacent to each other and with a valve body with said first and second control openings spaced relationship with the space therebetween extending over an intermediate angular wall section of said valve body corresponding to the size of both of said release opening for blocking communication with said exhaust duct and said bypass line, said valve body being movable from a blocking position in which said intermediate angular wall section blocks both said release openings in one direction to a position in which one of said release openings is in communication with the second exhaust gas flow control opening and in the opposite direction to a position in which both release openings are in communication with the first exhaust gas flow control opening."

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
